

Lab 3 Problem 2: Learning from websites with good design
Supakit Krongkaha 633040181-5

1. Themes are interesting, especially when touching the mouse, there will be movements that make it attractive to users.

2. When choosing another web page, there will be a page turning effect and colorful, eye-catching user.

3. There are functions on the website that are clear, uncomplicated and easy for users to understand.
